ASSEMBLY & INSTALLATION INSTRUCTIONS

Fixture
BPD45536

WARNING

IMPORTANT: NEVER attempt any work without shutting off the electricity.

- Read all instructions before installing.
- System is intended for installation in accordance with the National Electrical Code (NEC), other applicable installation code(s) and local regulations by a licensed electrician familiar with the operation of the product and the hazards involved.
- Go to the main fuse box, or circuit breaker panel. Place the main power switch in the "OFF" position and unscrew the fuse (s) or switch "OFF" the circuit breaker switch (es) that control the power to the fixture (s) or room that you are working on.
- Place the wall switch in the "OFF" position.
- FAILURE TO INSTALL THIS FIXTURE IN ACCORDANCE WITH THESE INSTRUCTIONS MAY RESULT IN SERIOUS PERSONAL INJURY OR DEATH AND/OR PROPERTY DAMAGE.

CAUTION

- All parts must be used as indicated in these instructions. Do not substitute any parts, leave parts out, or use any parts that are worn out or broken. Failure to follow this instruction could invalidate the ETL/CETL Listing of this fixture.
- When handling the fixture, do not apply pressure to the LEDs or bulbs. Hold the fixture by the base only.
- Do not exceed maximum wattage noted on the fixture. Use only the recommended LED or standard lamps with the fixture.

ADVERTENCIA

IMPORTANTE: NUNCA trate de hacer ningún trabajo sin desconectar la electricidad.

- Lea todas las instrucciones antes de instalar.
- El sistema tiene por objeto la instalación de acuerdo con el Código Eléctrico Nacional, y otros códigos de instalación y reglamentos locales aplicables, por parte de un electricista autorizado que esté familiarizado con el funcionamiento del producto y los peligros involucrados.
- Vaya a la caja de fusibles o al panel de disyuntores principal. Ponga el interruptor principal de alimentación en la posición de "APAGADO", y desenrosque los fusibles o "DESCONECTE" los disyuntores que controlen la alimentación a los dispositivos o la habitación en los que usted esté trabajando.
- Ponga el interruptor de pared en la posición de "APAGADO".
- EL HECHO DE NO INSTALAR ESTE DISPOSITIVO DE ACUERDO CON ESTAS INSTRUCCIONES PODRÍA RESULTAR EN UNA LESIÓN PERSONAL GRAVE O LA MUERTE, Y/O DAÑOS A LA PROPIEDAD.

PRECAUCIÓN

- Todas las piezas deben usarse como se indica en estas instrucciones. No sustituya ninguna pieza, no deje piezas fuera, ni utilice ninguna pieza que esté desgastada ni rota. El hecho de no seguir estas instrucciones podría invalidar la certificación ETL/CETL de este dispositivo.
- Al manipular el dispositivo, no aplique presión a los LED ni las bombillas. Sujete el dispositivo solo por la base.
- No exceda la potencia máxima indicada en el dispositivo. Use solo los LED o las bombillas estándar recomendados con el dispositivo.

ADVERTENCIA

IMPORTANTE: NUNCA trate de hacer ningún trabajo sin desconectar la electricidad.

IMPORTANT : Ne JAMAIS entreprendre des travaux sans couper l'électricité.

- Lire toutes les instructions avant l'installation.
- Ce système est conçu pour être installé conformément au Code national de l'électricité ou d'autres codes d'installation et réglementations locales en vigueur par un électricien agréé connaissant le fonctionnement de ce produit et les dangers qu'il comporte.
- Aller à la boîte à fusibles ou panneau principal de disjoncteurs. Placer l'interrupteur d'alimentation principal sur « ARRÊT » et dévisser le ou les fusibles ou mettre sur « ARRÊT » le ou les disjoncteurs qui contrôlent l'alimentation du ou des appareils électriques ou de la pièce dans laquelle vous travaillez.
- Mettre l'interrupteur mural sur « ARRÊT ».
- NÉGLIGER D'INSTALLER CET APPAREIL CONFORMÉMENT À CES INSTRUCTIONS RISQUE D'ENTRAÎNER DE GRAVES BLESSURES PERSONNELLES OU LA MORT AINSI QUE DES DOMMAGES MATÉRIELS.
- MISE EN GARDE
- Toutes les pièces doivent être utilisées comme indiqué dans ces instructions. Ne remplacer aucune pièce, ne laisser aucune pièce de côté ou n'utiliser aucune pièce usée ou cassée. Le non-respect de cette directive peut invalider l'homologation ETL/CETL de cet appareil.
- Lors de la manipulation de cet appareil, n'appliquer aucune pression sur les DEL ou les ampoules. Maintenir l'appareil par la base uniquement.
- Ne pas dépasser le nombre de watts maximum indiqué sur l'appareil. N'utiliser que les DEL ou ampoules standard recommandées dans cet appareil.

ASSEMBLY & INSTALLATION INSTRUCTIONS

Fixture
BPD45536

PREPARATION

1. Shut off the power at the circuit breaker and remove existing fixture, including the crossbar.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Be careful not to lose any small parts necessary for installation.

MOUNTING THE FIXTURE (Fig. 1)

3. Remove the Mounting screw (C) from the fixture. Remove the backplate from the canopy.
4. The lamp can switch between four color temperatures (3000K-3500K-4000K-5000K), which can be adjusted to your preference with the switch in the fixture(Fig.3).

Note: (i) The 4CCT switch comes with a detachable cover, remove the cover prior to adjusting the color temperature, reattach the cover after adjustment is made.

(ii) Fixture must be powered off to adjust the CCT setting, after each CCT adjustment cycle power on, off then on to show new CCT setting.

5. Using the backplate as a template, drill holes in the ceiling aligned with the outer set of 3 holes located in the backplate. Insert the plastic anchors (E) into the ceiling.
6. First, secure the backplate to the junction box using the junction box screws (not provided). Second, fasten the backplate to the ceiling using wood screws (D).

(i) This fixture is more than 50 lbs and must be mounted or supported independently of an outlet/junction box.

(ii) The side of the ceiling plate marked "GND" must face out, towards the installer.

7. Adjust each of the suspension cable length by pushing up on the cable gripper on the canopy and pulling the cable upwards through the cable gripper. Connect the driver output wires to the fixture wires as shown in Fig. 4

(i) Adjust the cable lengths to be close to the desired suspension lengths before proceeding.

Note: Retracting or extending excessive cable length through the cable gripper is not recommended.

(ii) All wire-ropes are made out of steel cable. Use the proper tool for cutting if needed. Wire-ropes on positive and negative terminal conducting low voltage, crossing them will result in temporary short-circuitry. Avoid crossing these wire-ropes with any metal.

WIRING THE FIXTURE(Fig. 1, Fig. 2, Fig. 4)

8. Raise the fixture and bring the canopy near the backplate. Attach the fixture to the backplate using a safety cable as shown (Fig. 1).
9. Connect the driver input wires to the junction box wires as shown in Fig. 2 using wire connectors (A) provided. Ensure wire connectors (A) are secure. Connect the fixture's ground wire to the ground in the junction box; this will be either a green wire or a bare copper wire. After driver is wired to house wires, tuck them carefully inside the junction box.
10. Hold the canopy in both hands and place it on the backplate as shown in Fig. 1, then rotate the canopy clockwise until it stops. Install the mounting screw (C).
11. Turn on power to test the fixture.
12. Rotate crystal balls into fixtures (24 in total)
